

OS Project Submission Checklist

Project Title: Os Geeks

Group Members:

1. Ahmed Shaaban
2. Reham Khalaf
3. Mohammed Hassan
4. Mohammed Saleh
5. Mahmoud Yahia

Deliverables – please circle:

0. Programming Language used: C / C++ / **JAVA**
1. Pseudo Code and Algorithms included: [**YES**] / [NO]
2. Project completed / All modules : [**YES**] / [NO]
3. GNU standard code commenting: [YES] / [**NO**]
4. Code profile for all modules included: [YES] / [**NO**]
5. Call graph for all modules included: [**YES**] / [NO]
6. Project Documentation and How-TOs included: [**YES**] / [NO]
7. Pre-configured self running examples included: [YES] / [**NO**]
8. Testing documents included: [YES] / [**NO**]
9. Does the project includes a GUI: [**YES**] / [NO]
10. Did you include the HW project / or the USB file-system: [**YES**] / [NO]
11. Did you include the sample System calls routines: [YES] / [**NO**]
12. Does your project runs completely from a unified interface: [**YES**] / [NO]

Contribution and Ownership: Code & Documentation

1. Module Synchronization:
 - Developer / Student name: Mahmoud Yahia
2. Module Deadlock
 - Developer / Student name: Ahmed Shaaban
3. Module Scheduling
 - Developer / Student name: Mahmoud Yahia
4. Module Memory Management
 - Developer / Student name: Mohammed Saleh
5. Module File System
 - Developer / Student name: Reham Khalaf & Mohamed Hassan
6. Module Input / Output
 - Developer / Student name: Ahmed Shaaban
7. Module Networking
 - Developer / Student name: Mahmoud Yahia

Is there any extra features in your project: [YES] / [**NO**]

-If YES please list: _____
